

Inclement Weather Policy

No refunds will be given due to *inclement weather*.

The safety of our athletes and volunteers is our primary concern. In the event of inclement weather, the race will continue under the following circumstances:

Rain - the event will NOT be cancelled due to rain alone.

Lightning - If the Park District Lighting Prediction System is activated (one long siren), the event will be postponed for a minimum of 20 minutes until the system signals the all clear (three short sirens). Participants should seek shelter in their vehicles, in the bathroom east of the finish line, or in the Geiseman Gymnasium southeast of the track. If lightning continues until 8:35 am, the race will be subject to cancellation.

Tornado Warning - The race will be cancelled in the event of a tornado warning.

If the event is cancelled, packets can be picked up at 401 Thatcher Avenue, River Forest. Packets will NOT be mailed to participants if the race is cancelled.

Any event updates the day prior to the event will be emailed to participants. Day of event updates will be available on the River Forest Park District hotline at [708-802-1314](tel:708-802-1314).
